# NC Secretary of State • Your Business Starts Here!

## *Take Your Business Up to the Next Level with Rural RISE NC*

Congratulations on starting your new business!

Registering a business is a terrific beginning, but knowing what comes next can be tricky and time consuming. For example, where can you receive a loan? What taxes have to be paid? How to spread the word about your business?

**Here's a way to have experienced, professional advisors help you get off to a great start.**

As a former small business owner, I understand how important to your success it is to quickly find and access local resources. That's why I started **Rural RISE NC** – Resources for Innovators, Start-Ups, and Entrepreneurs for you.

Our **Rural RISE NC** initiative connects you with **mentors, business counselors, funding sources, and more**—within your community and beyond. And even better, **many of these resources are free**.

For further information, please visit our website **SOSNC.gov/RISE**.

There you can search by your county and start connecting with professionals who will help increase the likelihood of your success. I am confident they can help your new business **RISE** to the next level.

Elaine F. Marshall
